

Number of the day

Choose a number (we've picked 7 here)

Learners use post it notes to:

- Collect facts about the number
- Write down what is special about that number

Our Aim: Make learners aware that:

- they already know a lot about Numbers and Maths
- there is not just one correct answer, but many

It's an
odd
number

$$7 \times 7 = 49$$

Prime
number

$$10 - 3 = 7$$

$$3 + 4 = 7$$
